DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-24 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 1,167,871 to Adams.

Regarding claim 21, Adams discloses a method comprising the steps of raising both a nip assembly (6) and a platform (5) inside a building.

Regarding claims 22-24, the applicant should note that the method claimed in claim 21 does not include structure of the platform. The limitations of the method are met by Adams as detailed in the rejection of claim 21. The structure of the platform has no bearing on the method of assembling the tower.

Claims 25 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,450,695 to Desai.

Regarding claim 25, Desai discloses a method of assembling a tower comprising the steps of erecting a platform (fig. 3a: 48a-d), supported by columns (fig. 3a: 38a-d), the platform having an opening there through (opening inside area surrounded by fig. 3: 48a-d), lifting a nip assembly (fig. 13: 61) mounted on a base member (fig. 13: 64) through the opening using support member (roller 34), and attaching the base member to the platform (completed figure 2).

Regarding claim 26, Desai discloses the nip assembly as attached before the lifting.

Response to Arguments

Applicant's arguments filed 9/26/05 have been fully considered but they are moot under new grounds of rejections.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
